In default hours, you can set-up text hours to be used in the scheduler.

You must give a default time for the item to be "scheduled" to be done. This simply makes this item available starting at this time. It does not expire or disappear so you have all morning to do this even though its default time is 8am.

Days After Phone Order – How many days to set system for actual physician signature after phone order created?

Severity level – defines what severity level you want to print warning for

NDC Required - Do you need to choose a specific NDC in each order

Show NDC – Do you want the NDC code to show in the orders?

Default Pharmacy – choose from list of pharmacies that have been entered for your facility in the ADT Other Organizations table

Consent Statement - The line you wish printed on report and documentation sheets

For example: Physician has obtained consent from resident and/or responsible party

PRN Reason – Is it required?

PRN Orders: Diagnosis required - do you require a diagnosis in your PRN orders

Orders Default start time – this will be the default time for orders, which can be changed in any order creation

Attending Doctor is Default – this will default the residents attending doctor into all orders. This can be changed in the individual orders though

Requires Barcode ID – This is for EMAR

PO Module Printing Options

Printing Options

Print Drug Amt to Administer	@Yes	🔘 No			
Reports Legend Lines	5				
Shade DC`s Orders in report	Yes	🔘 No			

Print PRN Reason - yes or no

Documentation Sheet Frequency – How many sets of documentation do you want the system to default for your PRN orders?

Print Total Dosage - If you wish to print the total dosage on the reports and documentation sheets

Print Drug Strength - If you wish to print the strength on the reports and documentation sheets

Print Drug Dosage Form - If you wish to print the dosage form on the reports and documentation sheets

Print Drug Amount to Administer - If you wish to print the amt to administer on the reports and documentation sheets

Report Legend Lines - How many lines do you wish to print for the signature/initials legend?

Shade DC's Orders in report – this feature will shade any order that is discontinued sometime during the period that the report is run for.

Black Box Warning – This is a list of all the drugs and you can check/uncheck any drug that you would like to include/exclude from printing Black Box Warnings.

Standing Orders are orders that a particular physician had deemed appropriate for all of his/her patients. These could be PRNs, Meds or Treatments. They are SPECIFIC to a PHYSCIAN.

You create the Standing Order just like you would any other order.

You can choose to have it print on the Standing Orders documentation sheet or to any other one you wish.

You must add all the therapists into personnel as employees

You then assign one or more disciplines to each employee in the Additional Discipline Assignment applet
